Sabinas is the fourth development within Real de la Quinta, Sabinas enjoys spectacular views over the resort, lake and coastline. The architecture, by Villaroel Torrico, is contemporary but the use of traditional materials creates a link between this new development and the green environment in which it is nestled. The domain extends over 200 hectares. Several individual developments have already been delivered. The urbanizations are consistently designed with their own architecture and with some private facilities. Some communal facilities will be provided on the domain. The most impressive is the large lake, along which many recreational opportunities will be created. There will also be a...
